## Review of Operations

### ACTIVITIES

Emu NL's (ASX:EMU) primary focus continued to be the exploration of the Elevado Project in the Maricunga belt in the Atacama Region in Northern Chile. Following the previous period's successful drilling result from the Vidalita Prospect, located within the 136 km<sup>2</sup> of concessions at Elevado, Emu conducted a full review of its data directed at attaining a better understanding of the Vidalita mineralisation system and its structural/geologic controls to improve vectors for a planned diamond drilling programme.

At the completion of the 2019 season, EMU relogged all drill core and completed an extensive ASD Terraspec HALO hand-held spectrometer survey of 12,000 metres of drill pulp samples to better identify alteration and clay minerals associated with mineralisation, and to provide vectors towards possible heat sources in the High Sulphidisation Epithermal mineral model. EMU engaged global, world class consultants to critique and review the geophysics, geochemistry and geology to further focus the diamond drilling campaign and to assess the regional targets planned for aircore or reverse circulation drilling.

On 1 October 2019 Emu returned to Elevado during, what proved to be, a favourable weather season. The early establishment of a quality 24-man camp and early completion of site works, paved the way for early mobilisation of the diamond drilling rig and the regional exploration resources and personnel. A comprehensive regional exploration programme, involving a stream sediment sampling team and the engagement of a highly experienced prospector with a quad bike to access and explore the complete package of concessions held by EMU in the region, was undertaken. The work proved highly successful with four new reverse circulation drill targets being generated within the regional concessions.

The diamond drilling programme at Vidalita was completed on 31 December 2019. Two diamond drill holes for a total of 828m were drilled into prospective IP targets that had been re interpreted from the raw geophysics data. One hole was designed to test a deep IP anomaly under the discovery hole at Vidalita (ASX Announcement 8 March 2019) and the other over the NE Plains Prospect.

EMU commenced the reverse circulation drilling programme on 20 January 2020 and completed it on 23 February 2020 alongside the ongoing regional exploration and stream sediment sampling programmes.

No significant gold assay results were returned from either the diamond drilling or the reverse circulation programmes. Disappointingly, this did not meet EMU's expectations and a decision to finalise the programme at Elevado was announced to shareholders in an ASX announcement on 17 March 2020 and detailed in a market update to ASX on 23 April 2020. EMU completed its demobilisation from Elevado on 3 March 2020 and commenced a rapid focussed cost saving programme. Significant savings resulted from this swift action with the costs of the season coming in well under budget.

EMU's ongoing project review/generation activities were redoubled. Senior representatives attended the Toronto PDAC Conference on 1-4 March 2020 and returned with more than 30 projects to consider. Then the COVID 19 pandemic began affecting most jurisdictions and the focus of project generation was redirected at and concentrated upon Australia. EMU recognised the issue early, particularly the actual and threatened adverse restrictions on travel both interstate and to internationally.

EMU applied for an exploration license in the Menzies region of WA called the 8 Mile Dam Project, conducted a desktop review and scheduled a reconnaissance visit to site. The desktop review identified the presence of ultramafic lithologies and nickel geochemical values in historic drilling assay results for diamond exploration within a largely unexplored granite setting. The geology is interpreted as rafts of mafic-ultra mafic greenstones within a granite–granodiorite terrane. The slithers of greenstone intrusions under shallow cover offer a new target type for this terrane which EMU will follow through in 2021.

### COMPETENT PERSON'S STATEMENT

Any details contained herein that pertain to exploration results, mineral resources or mineral reserves are based upon information compiled by Mr Francisco Montes, Senior Geologist and Exploration Manager, of Emu NL. Mr Montes is a Member of the Australasian Institute of Geoscientists and has sufficient experience in the activity which he is undertaking to qualify as a Competent Person as defined in the 2012 edition of the "Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves" (JORC Code). Mr Montes consents to the inclusion herein of the matters based upon his information in the form and context in which it appears.

## Review of Operations

### CORPORATE

#### *Board Changes*

EMU appointed Tim Staermose as a Non-executive Director on 14 October 2019 following the capital raising underwritten by Strategic Bank International Corp.

#### *Capital Raising activities*

EMU announced on 2 September 2019 that it had completed an issue of 16,908,935 fully paid ordinary shares at \$0.035 each (raising \$676,357 before costs) to sophisticated and professional investors. The shares were listed on ASX and ranked equally with the existing fully paid ordinary shares. The placement was issued from EMU's capacity under both ASXLR 7.1A (10% rule) and ASXLR 7.1 (15% rule).

In accordance with the terms of that placement, EMU issued the following attaching options:

- a) 8,454,468 free S1 Option ("**S1 Option**") on basis of one (1) S1 Option for every two (2) shares issued – these S1 Options confer the right, exercisable at any time before 16 January 2021, to subscribe for an ASX listed EMU ordinary fully paid share upon payment of \$0.20 each; and
- b) 8,454,468 S2 Option ("**S2 Option**") on basis of one (1) for every two (2) shares issued - these S2 Options were issued at \$0.01 each and confer the right, exercisable at any time before 21 December 2020, to subscribe for an ASX listed EMUCA partly paid ordinary share upon payment of \$0.02 each.

EMU will apply to list the S1 Options if EMU ordinary fully paid shares trade at a volume weighted average price of 15 cents+ (\$0.15+) over 30 consecutive business days.

The one cent paid on application for an S2 Option is non-refundable and was applied as a prepayment against the capital of the contributing share into which the option may be converted so that upon exercise of the option, 3 cents will have been paid on the contributing share and that contributing share shall rank pari passu with the existing class of EMUCA contributing shares. In order to make the S2 Options attractive, EMU undertook that no call would be made on the EMUCA contributing shares before 31 December 2023.

EMU issued a Prospectus on 23 September 2019 and a Supplementary Prospectus on 3 October 2019 for an underwritten pro-rata non-renounceable rights issue. The Offer was underwritten to the extent of ~US\$2,670,000 by Strategic Bank with a total of 114,723,888 fully paid ordinary shares and 57,361,954 options to acquire partly-paid shares being issued pursuant to the rights issue and subsequent underwriter shortfall applications.

The Company issued 12,000,000 options to Directors to acquire contributing ordinary shares, as approved at the AGM and 10,000,00 options to employees/contractors. These options will not be quoted on the ASX, are exercisable at \$0.03 each and expire on 21 December 2021. If exercised, a further \$0.03 per contributing share is payable on call. The 3 cents can, at the election of the Board, be called in whole or part from time to time save that no call will be made prior to 31 December 2023. As the Company has a No Liability status, it cannot enforce the payment of a call. If the entire unpaid amount is paid (either pursuant to a call(s) or, with leave of the Board, in advance of a call), the contributing shares become ordinary fully paid shares ranking equally with the ASX listed EMU ordinary fully paid shares. If a call is not met, the contributing share will be forfeited.

EMU announced on 28 September 2020 that it had completed an issue of 33,333,333 fully paid ordinary shares at \$0.03 each (raising \$1,000,000 before costs) to sophisticated and professional investors. The shares were listed on ASX and rank equally with the existing fully paid ordinary shares. The placement was effected out of EMU's capacity under both ASXLR 7.1A (10% rule) and ASXLR 7.1 (15% rule).

#### *Drilling dispute*

As foreshadowed by the Company in its June 2020 Quarterly Activity Report, the District Court of Western Australia claim initiated by Wallis Drilling and counter claimed by EMU was dismissed with no order as to costs; no prior order as to costs will be enforced.

## Directors' Report

Your directors submit their report on the consolidated entity (referred to hereafter as the Group) consisting of Emu NL and the entities it controlled at the end of, or during, the year ended 30 June 2020.

### DIRECTORS

The names and details of the Company's directors in office during the year and until the date of this report follow. Each Director was in office for this entire period unless otherwise stated.

#### Names, qualifications, experience and special responsibilities

##### **Peter Thomas**, (Non-Executive Chairman)

Mr Thomas is a high-energy professional corporate director with astute commercial acumen and business expertise. For over 30 years, before retiring from legal practice, he specialised in the delivery of wide ranging legal, corporate and commercial advice to listed explorers and miners.

For nearly 40 years he has served on the boards of various listed companies including being the founding chairman of both copper producer Sandfire Resources NL (2004) and mineral sands producer Image Resources NL. Current ASX listed company board positions include being a non-executive director of Image Resources NL (since 19 April 2002) and non-executive chair of Middle Island Resources Limited (since 2 March 2010).

##### **Gavin Rutherford**, (Non-Executive Director)

Following a successful background in Agribusiness on both domestic and international stages, Mr Rutherford has spent over 20 years in the Mining Services/Fabrication/Contracting sector. This includes Managing Directorship of a contracting and construction company operating in the water space. For the last several years and in addition to operating his own business, he has consulted to both private and ASX listed boards on a diverse range of activities.

##### **Terence Streeter**, (Non-Executive Director)

Mr Streeter has extensive experience in funding, listing and overseeing junior explorers in all exploration and economic cycles and has served in various roles in the nickel sulphide industry for over 30 years. He was a director of West Australian nickel explorer and miner, Jubilee Mines NL from 1993 to May 2004 and was a founding shareholder of Western Areas NL (ASX:WSA) in 1999, which went on to discover and develop two high-grade nickel sulphide mines in the Forrestania region of Western Australia. He served as a non-executive director of Western Areas NL from 1999, and non-executive chairman from 2007 to November 2013. He has also been the non-executive chairman of unlisted Fox Resources Ltd (since June 2005), served as a non-executive director of Midas Resources Ltd (from June 2001 to April 2013), non-executive chairman of Alto Metals Ltd (from December 2016 to 8 November 2018) and served as a non-executive director of Minera IRL (from April 2007 to 2011). In 2010, Mr Streeter founded Riverbank Resources Mineracao Ltda, a private company incorporated in Brazil which is engaged in the exploration and development of iron, titanium, vanadium, base metal and gold projects throughout Brazil. Riverbank is actively exploring 100% owned iron and iron-titanium-vanadium projects in north-eastern Brazil.

##### **Tim Staermose**, (Non-Executive Director – Appointed 14.10.2019)

Tim Staermose has 24 years' equity capital markets, and equity research experience. He has worked at international sell-side equity brokerage firms in South Korea, and Hong Kong, including Banque Indosuez, (now part of Credit Agricole), in the late 1990s and, Lehman Brothers in the early 2000s. Following his career in sell-side equity research, Tim has worked as an independent researcher and stock-picker for a series of private research firms, including ones focussed specifically on natural resources, gold, and mining investments.

Today, he manages investments and advises high net worth individuals and family offices on stock market investing around the world. Recently he launched African Lions Fund Ltd, focussed on listed equity investments in the frontier markets of Sub-Saharan Africa. He is CEO of the Investment Manager, ST Funds Management Limited. He also serves as Chief Investment Strategist for [www.sovereignman.com](http://www.sovereignman.com), a leading online subscription-based publication with over 100,000 readers in more than 100 countries.

Tim has prior public company board experience in Australia with US Residential Limited, where he served as a Non-Executive Director from January to December 2017. He is also currently Chairman of ASX-listed minerals exploration company, Copper Strike Limited.

### COMPANY SECRETARY

#### **Damien Kelly**

Mr Kelly is the founder and principal of Western Tiger Corporate Advisers. He has broad corporate and commercial experience spanning 20+ years, providing professional services to ASX and AIM listed companies predominately in the mining and energy sector.

He has an MBA, Bachelor of Commerce, a Graduate Diploma in Applied Finance and Investment and is a former officer in the armed services, having graduated from the Royal Military College, Duntroon. He is also a member of CPA Australia.

## Directors' Report

### INTERESTS IN THE SHARES AND OPTIONS OF THE COMPANY AND RELATED BODIES CORPORATE

As at the date of signing this report, the relevant interests of the directors in the shares and options of Emu NL were:

	Ordinary Shares	Contributing Shares	Options over Fully Paid Shares	Options over Contributing Shares
Peter Thomas	8,790,473	9,420,651	-	3,000,000
Gavin Rutherford	4,118,871	1,884,281	-	3,312,500
Terence Streeter	-	-	-	3,000,000
Tim Staermose	10,627,387	750,000	6,145,834	6,169,839
	23,536,731	12,054,932	6,145,834	15,482,339

### PRINCIPAL ACTIVITIES

The principal activities of the Group during the year were (i) to explore its mineral interests in Chile, (ii) assess and pursue mineral property acquisition opportunities globally, and (iii) invest in shares in listed resource sector entities with the objective of offsetting operating expenses.

### DIVIDENDS

No dividends were paid or declared during the year. No recommendation for payment of dividends has been made.

### OPERATING AND FINANCIAL REVIEW

#### Finance Review

The Group began the financial year under review with a cash reserve of \$274,205.

During the year, total exploration expenditure incurred by the Group amounted to \$3,184,705 (2019: \$2,579,714). In line with the Group's accounting policies, all exploration expenditure is expensed as incurred. Other expenditure incurred, net of revenue, amounted to \$548,982,512,682 (2019: \$740,225). This resulted in an operating loss after income tax for the year ended 30 June 2020 of \$3,733,687 (2019: \$3,319,939).

At 30 June 2020 cash assets available totalled \$1,660,960. The net assets of the Group increased by \$1,307,045 during the year to \$1,594,963 at 30 June 2020. The Group's working capital increased during the year by \$1,326,390 to \$1,530,116 at 30 June 2020.

Summarised operating results are as follows:

	2020	
	Revenues	Net Loss
	\$	\$
Revenues and net loss for the year from ordinary activities before income tax expense	301,786	3,697,387

#### Shareholder Returns

	2020	2019
Basic and diluted loss per share (cents)	(1.32)	(2.24)

#### Risk Management

The board is responsible for ensuring that risks, and also opportunities, are identified on a timely basis and that activities are aligned with the risks and opportunities identified by the board.

The board believes that it is crucial for all board members to be a part of this process, and, accordingly, all board members form, and discharge the obligations of the risk management committee.

The board has a number of mechanisms in place to ensure that management's objectives and activities are aligned with the risks identified by the board. These include implementation of board approved operating plans and budgets and board monitoring of progress against these budgets.

### SIGNIFICANT CHANGES IN THE STATE OF AFFAIRS

Other than as disclosed in this Annual Report, no significant changes in the state of affairs of the Group occurred during the financial year.

## Directors' Report

### SIGNIFICANT EVENTS OCCURRING AFTER THE BALANCE SHEET DATE

Since the reporting date:

- EMU announced on 28 September 2020 that it had completed an issue of 33,333,333 fully paid ordinary shares at \$0.03 each (raising \$1,000,000 before costs) to sophisticated and professional investors. The shares were listed on ASX and rank equally with the existing fully paid ordinary shares. The placement was issued from EMU's capacity under both ASXLR 7.1A (10% rule) and ASXLR 7.1 (15% rule).
- EMU announced on 28 September 2020 that it had transformed into a WA-focused precious and base metals exploration company, with near-term gold production potential with the contracted Acquisition of:
  - Coruscant Minerals Pty Ltd, the holder of the Gnows Nest Gold Project, which includes the historic high-grade Gnows Nest Gold Mine, located within the Yalgoo Mineral Field of WA and
  - 3 projects prospective for nickel-copper-platinum group element (Ni-Cu-PGE) mineralisation located within the emerging South West Terrane in the Wheatbelt Region of WA.
- The Company advised in its June 2020 Quarterly Activity Report that an agreement was reached by Wallis and EMU whereby the District Court of Western Australia claim initiated by Wallis Drilling and EMU's counter claim thereto were both settled with both the claim and the counter claim being dismissed with no order as to costs; no prior order as to costs will be enforced.

No matters or circumstances, besides those disclosed above, have arisen since the end of the year which significantly affected or which in the judgement of the board may significantly affect the operations of the Group, the results of those operations, or the state of affairs of the Group in future financial periods.

### LIKELY DEVELOPMENTS AND EXPECTED RESULTS

In order to make (or to secure the right to make) one or more acquisitions and to further its existing projects, the Group expects to undertake capital raisings. EMU's focus, in the coming year, will be on:

- making one further mineral resource related acquisition and
- expeditiously exploring all its projects; and
- in addition to the above focus on exploration, exploring the Gnows Nest Project with a view to expanding the resource and evaluating and pursuing the prospect of bringing its Gnows Nets project into production in the near term;

to accrete value to shareholders mindful of the impact of diluting equity capital and seeking to balance that against the Board's judgment regarding managing solvency risk. In addition, EMU will pursue resource equity investments consistent with its published practise and objective in that regard.

Other than as set out above, likely developments in the operations of the Group and the expected results of those operations in future financial years have not been included in this report as the directors believe, on reasonable grounds, that the inclusion of such information would be likely to result in unreasonable prejudice to the Group.

### ENVIRONMENTAL REGULATION AND PERFORMANCE

The Group is subject to significant environmental regulation in respect to its activities.

The Group aims to ensure the appropriate standard of environmental care is achieved, and in doing so, that it is aware of and complies with all environmental legislation. The directors of the Company are not aware of any breach of environmental legislation for the year under review.

### REMUNERATION REPORT

The information provided in this remuneration report has been audited as required by section 308(3C) of the *Corporations Act 2001*.

#### Policy principles used/to be used to determine the nature and amount of remuneration

##### *Remuneration Policy*

The remuneration policy of Emu NL is designed to align key management personnel objectives with shareholder and business objectives by providing a fixed remuneration component. The board of Emu NL believes the remuneration policy for the year under review was appropriate to attract and retain suitable key management personnel to run and manage the Group. Consideration has been and will continue to be given to offering specific short- and long-term incentives including, specifically, equity remuneration.

The remuneration policy, setting the terms and conditions for the executive directors and other senior executives (if any), was developed by the board. In general in respect of the year under review, executives received a base salary (which was based on factors such as experience), superannuation and share-based payments. The board will review executive packages as and when it considers it appropriate to do so in accordance with its remuneration policy and by reference to the Group's performance, executive performance and comparable information from industry sectors and other listed companies in similar industries.

The board may exercise discretion in relation to approving incentives, bonuses and equity remuneration. The policy is to reward executives for performance that results in long-term growth in shareholder wealth.

The directors and executives receive, where required by law, a superannuation guarantee contribution, which was 9.5% for the 2020 financial year but are not entitled to receive any other retirement benefits.

## Directors' Report

All remuneration paid to directors and executives is "valued" at the cost to the Group and expensed. Where applicable, options granted as equity remuneration are ascribed a "fair value" in accordance with Australian Accounting Standards.

The board's policy is to remunerate non-executive directors at market rates for comparable companies for time, commitment and responsibilities, albeit the directors are currently remunerated at or below the lower end of the market rate range; certainly in cash terms. The board determines payments to the non-executive directors and the policy is to effect reviews of remuneration annually, based on market practice, duties and accountability; all within the constraints of the fiscal wherewithall of the Company and an overarching objective to conserve cash and align the interests of the board with Shareholders. The maximum aggregate amount of fees that can be paid annually to non-executive directors is currently \$250,000 which can only be increased with the approval of shareholders in General Meeting. Fees for non-executive directors are not linked to the performance of the Group. However, to align directors' interests with shareholder interests, the directors are encouraged to hold shares in the Company and are able to participate in equity remuneration arrangements.

### *Company performance, shareholder wealth and key management personnel remuneration*

There is no relationship between the financial performance of the Company for the current or previous financial year and the remuneration of the key management personnel. Remuneration is set having regard to market conditions and to encourage continued services of key management personnel whilst balancing those demands against the Company's financial wherewithal.

### *Use of remuneration consultants*

The Group did not employ the services of any remuneration consultants during the financial year ended 30 June 2020.

### Details of Remuneration

Details of the remuneration of the directors and the key management personnel of the Group are set out in the following table.

The Key Management Personnel (KMP) of the Group include the directors as per page 5 above and CEO/general managers.

### *Key management personnel of the Group*

\* See 'Share based compensation' (Refer Note 22) and Note 1(o) Share-based payments: for observations regarding the ascribed (notional) values

### *Written Service agreements*

The Company has one current service agreement in respect of CEO services which are provided by Astrial Pty Ltd. The services are provided on an as required basis at a turnkey daily rate of \$1,100 plus GST (rate is inclusive of all other costs).

## Directors' Report

### Share holdings

The relevant interest held during the financial year by each KMP is set out below. No shares were issued as compensation during the reporting period.

2020	Balance at start of the period	Shares acquired during period	Other	Balance at end of the period
<b>Ordinary shares fully paid</b>				
Peter Thomas	7,782,967	-	-	7,782,967
Gavin Rutherford	2,486,365	625,000	-	3,111,365
Terence Streeter	-	-	-	-
Tim Staermose	-	4,464,678	6,162,709	10,627,387
	<b>10,269,332</b>	<b>5,089,678</b>	<b>6,162,709</b>	<b>21,521,719</b>
<b>Ordinary shares contributed to \$0.03</b>				
Peter Thomas	9,420,651	-	-	9,420,651
Gavin Rutherford	1,884,281	-	-	1,884,281
Terence Streeter	-	-	-	-
Tim Staermose	-	-	750,000	750,000
	<b>11,304,932</b>	<b>-</b>	<b>750,000</b>	<b>12,054,932</b>

### Option holdings

The relevant interest\* in options over ordinary shares in the Company held during the financial year by each director of Emu NL and other key management personnel of the Group is set out below (Note 1):

2020	Balance at start of the year	Granted as compensation	Lapsed / Expired	Other changes	Balance at end of the year	Vested and exercisable (Note 2)	Unvested
Peter Thomas	2,000,000	3,000,000	(2,000,000)	-	3,000,000	3,000,000	-
Gavin Rutherford	2,000,000	3,000,000	(2,000,000)	312,500	3,312,500	3,312,500	-
Terence Streeter	2,000,000	3,000,000	(2,000,000)	-	3,000,000	3,000,000	-
Tim Staermose	-	3,000,000	-	9,315,673	12,315,673	12,315,673	-
CEO	-	3,000,000	-	-	3,000,000	1,500,000	1,500,000
	<b>6,000,000</b>	<b>15,000,000</b>	<b>(6,000,000)</b>	<b>9,628,173</b>	<b>24,628,173</b>	<b>23,128,173</b>	<b>1,500,000</b>

\*Note 1: Using the expression "relevant interest" as if the options were the securitites into which they can be converted. Each option on issue (or exercised) during the financial year entitles (or entitled) the holder to one contributing ordinary share in the capital of the Company if the option is exercised. All vested options are (or were) able to be exercised at any time until the expiry date. None of the options granted (except those granted to the CEO) were subject to any vesting or other performance conditions and no amount was paid or payable by the recipients in respect of the grant of the options.

Note 2: These options were able to be exercised at the end of the year under review.

### Other equity-related KMP transactions

There have been no other transactions during the financial year involving equity instruments apart from those described in the tables above relating to options, rights and shareholdings.

### Loans to key management personnel

There were no loans to key management personnel during the year.

### Other transactions with key management personnel

Transactions between related parties are on normal commercial terms and conditions no more favourable than those available to third parties unless otherwise stated. The Company has one current service agreement in respect of the CEO which is detailed above.

### End of audited Remuneration Report

## Directors' Report

### DIRECTORS' MEETINGS

During the year the Company held nine meetings of directors. The attendance of directors at meetings of the board were:

	Directors Meetings	
	A*	B**
Peter Thomas	9	9
Gavin Rutherford	9	9
Terence Streeter	9	9
Tim Staermose	6	6

#### Notes

\*A – Number of meetings attended.

\*\*B – Number of meetings held during the time the director held office during the year.

The full board discharged the functions of the audit, remuneration, risk and nomination committees regularly and during the course of ordinary director meetings.

### SHARES UNDER OPTION

Unissued ordinary shares of Emu NL under option at the date of this report are:

Grant date	Expiry date	Exercise price (cents)	Number of options
27 March 2019	15 January 2021	20.0	40,505,000
24 June 2019	15 January 2021	20.0	3,850,000
12 July 2019	15 January 2021	20.0	40,000,000
28 August 2019	16 January 2021	20.0	8,454,468
<b>Total number of options over fully paid shares outstanding at the date of this report</b>			<b>92,809,468</b>

Grant date	Expiry date	Exercise price (cents)	Number of options
28 August 2019	21 December 2020	2.0	8,397,796
22 October 2019	21 December 2020	2.0	10,434,229
12 November 2019	21 December 2020	2.0	46,927,725
27 December 2019	21 December 2021	3.0	12,000,000
11 February 2020	21 December 2021	3.0	10,000,000
<b>Total number of options over contributing shares outstanding at the date of this report</b>			<b>87,759,750</b>

No option holder has any right under the options, save upon exercise, to participate in any share issue of the Company or any other entity.

EMU will be seeking Shareholder approval for the purposes of item 7 of Section 611 of the Corporations Act to allow the Company to issue 46,927,725 Shares to Strategic Bank, in the event of exercise of 46,927,725 Options. If Shareholders give approval to allow Strategic Bank to act on the Option Exercise and Strategic Bank proceeds to convert all of its Options into Shares, their voting power in the Company will increase from 29.811% to up to 38.915% (assuming no equity issue by EMU post the date of this report).

Other than as set out above or elsewhere in this annual report, no options have been granted over unissued shares or interests of any controlled entity within the Group during or since the end of the reporting period.

### INSURANCE OF DIRECTORS AND OFFICERS

During or since the financial year, in accordance with each director's Deed of Indemnity, Insurance and Access with Emu NL, the Group has paid premiums insuring all the directors of Emu NL, to the extent permitted by law, against all liabilities incurred by the director acting directly or indirectly as a director of the Company. The cover extends to legal costs incurred by the director in defending proceedings, provided that the liabilities for which the director is to be insured do not arise out of conduct involving a wilful breach of the director's duty to the Company or a contravention of sections 182 or 183 of the *Corporations Act 2001*.

The total amount of insurance contract premiums paid is \$8,565 (2019: \$5,964).

## Directors' Report

### NON-AUDIT SERVICES

The directors are of the opinion that the services as disclosed in note 15 to the financial statements do not compromise the external auditor's independence requirements of the Corporations Act 2001 for the following reasons:

- all non-audit services have been reviewed and approved to ensure that they do not impact the integrity and objectivity of the auditor; and
- none of the services undermine the general principles relating to auditor independence as set out in APES 110 Code of Ethics for Professional Accountants issued by the Accounting Professional and Ethical Standards Board, including reviewing or auditing the auditor's own work, acting in a management or decision-making capacity for the company, acting as advocate for the company or jointly sharing economic risks and rewards.

Elderton Audit or associated entities received or are due to receive the following amounts for the provision of non-audit services:

	<b>2019</b>	<b>2019</b>
	<b>\$</b>	<b>\$</b>
Tax compliance services	<b>2,500</b>	2,698
Preparation of Independent Expert Report	<b>10,000</b>	-
<b>Total remuneration for non-audit services</b>	<b>12,500</b>	2,698

### PROCEEDINGS ON BEHALF OF THE COMPANY

No person has applied to the Court under section 237 of the *Corporations Act 2001* for leave to bring proceedings on behalf of the Company, or to intervene in any proceedings to which the Company is a party, for the purpose of taking responsibility on behalf of the Company for all or any part of those proceedings.

No proceedings have been brought, or intervened in, on behalf of the Company with leave of the Court under section 237 of the *Corporations Act 2001*.

### AUDITOR'S INDEPENDENCE DECLARATION

A copy of the auditor's independence declaration as required under section 307C of the *Corporations Act 2001* is set out on page 12.

Signed in accordance with a resolution of the directors.

*Signature of Peter Thomas noted as having been affixed with approval*

**Peter S Thomas**

Non-Executive Chairman

Perth, 30 September 2020

## Auditor's Independence Declaration

### Auditor's Independence Declaration

To those charged with governance of Emu NL

As auditor for the audit of Emu NL for the year ended 30 June 2020, I declare that, to the best of my knowledge and belief, there have been:

- i. no contraventions of the independence requirements of the *Corporations Act 2001* in relation to the audit; and
- ii. no contraventions of any applicable code of professional conduct in relation to the audit.

*Signature of Elderton Audit Pty Ltd noted as having been affixed with approval*

**Elderton Audit Pty Ltd**

*Signature of Nicholas Hollens noted as having been affixed with approval*

**Nicholas Hollens**  
Managing Director

30 September 2020

Perth

## Corporate Governance Statement

Emu NL reviews its corporate governance practices against the Corporate Governance Principles and Recommendations (3<sup>rd</sup> edition) published by the ASX Corporate Governance Council. The Corporate Governance Principles and recommendations (4<sup>th</sup> edition) will come into effect for the year ended 30 June 2021 as far as this Company is concerned and its corporate governance practices will be reported against those recommendations in that year.

The 2020 Corporate Governance Statement was approved by the board on 30 September 2020. A description of the Group's current corporate governance practices is set out in the Group's Corporate Governance Statement which can be viewed at [www.emu.com.au](http://www.emu.com.au).

# Notes to the Consolidated Financial Statements

## 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The principal accounting policies adopted in the preparation of the financial statements are set out below. The financial statements are for the consolidated entity consisting of Emu NL and its subsidiaries. The financial statements are presented in the Australian currency. Emu NL is a no liability company, domiciled and incorporated in Australia. The financial statements were authorised for issue by the directors on 30 September 2020. The directors have the power to amend and reissue the financial statements.

### (a) Basis of preparation

These general-purpose financial statements have been prepared in accordance with Australian Accounting Standards and Interpretations issued by the Australian Accounting Standards Board and the *Corporations Act 2001*. Emu NL is a for-profit entity for the purpose of preparing the financial statements.

### Going concern

The financial statements have been prepared on the going concern basis, which contemplates the continuity of normal business activities and the realisation of assets and settlement of liabilities in the normal course of business.

As disclosed in the financial statements, the Group incurred a loss of \$3,733,687 and had net operating cash outflows of \$3,862,876. These conditions indicate a material uncertainty that may cast significant doubt about the Group's ability to continue as a going concern.

The ability of the entity to continue as a going concern is dependent on securing additional capital raising activities to continue its operational and exploration activities.

Should the entity not be able to continue as a going concern, it may be required to realise its assets and discharge its liabilities other than in the ordinary course of business, and at amounts that differ from those stated in the financial statements and that the financial report does not include any adjustments relating to the recoverability and classification of recorded asset amounts or liabilities that might be necessary should the entity not continue as a going concern.

#### (i) Compliance with IFRS

The consolidated financial statements of the Emu NL Group also comply with International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board (IASB).

#### (ii) Adoption of new and revised accounting standards

The consolidated entity has adopted all of the new or amended Accounting Standards and Interpretations issued by the Australian Accounting Standards Board ('AASB') that are mandatory for the current reporting period.

Any new or amended Accounting Standards or Interpretations that are not yet mandatory have not been early adopted.

#### (iii) New standards and interpretations not yet adopted

The AASB has issued new and amended Accounting Standards and Interpretations that have mandatory application date or future reporting periods and which the Company has decided not to early adopt. A discussion of those future requirements and their impact on the Company is as follows:

- *AASB 16 Leases*

The standard replaces AASB 117 'Leases' and for lessees will eliminate the classifications of operating leases and finance leases, and require, subject to certain exemptions, the recognition of a 'right-of-use asset' and a corresponding lease liability, and the subsequent depreciation of the 'right-of-use' asset. For lessor accounting, the standard does not substantially change how a lessor accounts for leases.

The Company is currently not party to any material operating or finance lease arrangements.

#### (iv) Historical cost convention and going concern basis

These financial statements have been prepared under the historical cost convention, as modified by the revaluation of selected non-current assets, financial assets and financial liabilities for which the fair value basis of accounting has been applied. These financial statements have been prepared on the going concern basis.

### (b) Principles of consolidation

#### (i) Subsidiaries

Subsidiaries are all entities (including structured entities) over which the Group has control. The Group controls an entity when the Group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power to direct the activities of the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the Group. They are de-consolidated from the date that control ceases.

The acquisition method of accounting is used to account for business combinations by the Group.

Intercompany transactions, balances and unrealised gains on transactions between Group companies are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of the impairment of the transferred asset. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the Group.

Non-controlling interests in the results and equity of subsidiaries are shown separately in the consolidated statement of profit or loss and other comprehensive income, statement of changes in equity and statement of financial position respectively.

## Notes to the Consolidated Financial Statements

### 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### *(ii) Changes in ownership interests*

The Group treats transactions with non-controlling interests that do not result in a loss of control as transactions with equity owners of the Group. A change in ownership interest results in an adjustment between the carrying amounts of the controlling and non-controlling interests to reflect their relative interests in the subsidiary. Any difference between the amount of the adjustment to non-controlling interests and any consideration paid or received is recognised in a separate reserve within equity attributable to owners of Emu NL.

When the Group ceases to have control, any retained interest in the entity is remeasured to its fair value with the change in carrying amount recognised in profit or loss. The fair value is the initial carrying amount for the purposes of subsequently accounting for the retained interest as an associate, jointly controlled entity or financial asset. In addition, any amounts previously recognised in other comprehensive income in respect of that entity are accounted for as if the group had directly disposed of the related assets or liabilities. This may mean that amounts previously recognised in other comprehensive income are reclassified to profit or loss.

If the ownership interest in a jointly controlled entity or associate is reduced but joint control or significant influence is retained, only a proportionate share of the amounts previously recognised in other comprehensive income are reclassified to profit or loss where appropriate.

#### **(c) Segment reporting**

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker. The chief operating decision maker, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the full board of Directors.

#### **(d) Foreign currency translation**

##### *(i) Functional and presentation currency*

Items included in the financial statements of each of the Group's entities are measured using the currency of the primary economic environment in which the entity operates ('the functional currency'). The consolidated financial statements are presented in Australian dollars, which is Emu NL's functional and presentation currency.

##### *(ii) Transactions and balances*

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in profit or loss. They are deferred in equity if they are attributable to part of the net investment in a foreign operation.

##### *(iii) Group companies*

The results and financial position of all the Group entities (none of which has the currency of a hyperinflationary economy) that have a functional currency different from the presentation currency are translated into the presentation currency as follows:

- assets and liabilities for each statement of financial position presented are translated at the closing rate at the date of that statement of financial position;
- income and expenses for each statement of profit and loss and other comprehensive income are translated at average exchange rates (unless that is not a reasonable approximation of the cumulative effect of the rates prevailing on the transaction dates, in which case income and expenses are translated at the dates of the transactions); and
- all resulting exchange differences are recognised in other comprehensive income.

On consolidation, exchange differences arising from the translation of any net investment in foreign entities, and of borrowings and other financial instruments designated as hedges of such investments, are recognised in other comprehensive income. When a foreign operation is sold or any borrowings forming part of the net investment are repaid, the associated exchange differences are reclassified to profit or loss, as part of the gain or loss on sale.

#### **(e) Revenue recognition**

Interest revenue is recognised on a time proportionate basis that takes into account the effective yield on the financial assets.

#### **(f) Income tax**

The income tax expense or revenue for the year is the tax payable on the current year's taxable income based on the applicable income tax rate for each jurisdiction adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses.

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the end of the reporting period in the countries where the Company's subsidiaries and associated operate and generate taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

## Notes to the Consolidated Financial Statements

### 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the consolidated financial statements. However, the deferred income tax is not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable profit or loss. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the reporting date and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred tax assets are recognised for deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

Deferred tax liabilities and assets are not recognised for temporary differences between the carrying amount and tax bases of investments in controlled entities where the parent entity is able to control the timing of the reversal of the temporary differences and it is probable that the differences will not reverse in the foreseeable future.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Current and deferred tax is recognised in profit or loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively.

#### **(g) Leases**

Leases where a significant portion of the risks and rewards of ownership are not transferred to the Group as lessee are classified as operating leases. Payments made under operating leases (net of any incentives received from the lessor) are charged to profit or loss on a straight-line basis over the period of the lease.

#### **(h) Impairment of assets**

Goodwill and intangible assets that have an indefinite useful life are not subject to amortisation and are tested annually for impairment, or more frequently if events or changes in circumstances indicate that they might be impaired. Other assets are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash inflows which are largely independent of the cash inflows from other assets or groups of assets (cash-generating units). Non-financial assets that suffered an impairment are reviewed for possible reversal of the impairment at the end of each reporting period. Note that exploration and evaluation expenditures are expensed as incurred – see note 1(l).

#### **(i) Cash and cash equivalents**

For statement of cash flows presentation purposes, cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short-term highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to insignificant risk of changes in value.

#### **(j) Financial instruments**

##### ***Initial recognition and measurement***

Financial assets and financial liabilities are recognised when the Group becomes a party to the contractual provisions to the instrument. For financial assets, this is the date that the Group commits itself to either the purchase or sale of the asset (i.e. trade date accounting is adopted).

Financial instruments (except for trade receivables) are initially measured at fair value plus transaction costs, except where the instrument is classified "at fair value through profit or loss", in which case transaction costs are expensed to profit or loss immediately. Where available, quoted prices in an active market are used to determine fair value. In other circumstances, valuation techniques are adopted.

Trade receivables are initially measured at the transaction price if the trade receivables do not contain significant financing component or if the practical expedient was applied as specified in AASB 15.63.

## Notes to the Consolidated Financial Statements

### 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### *Classification and subsequent measurement*

##### *Financial assets*

Financial assets are subsequently measured at:

- amortised cost;
- fair value through other comprehensive income; or
- fair value through profit or loss

On the basis of the two primary criteria:

- the contractual cash flow characteristics of the financial asset; and
- the business model for managing the financial assets

A financial asset is subsequently measured at amortised cost when it meets the following conditions:

- the financial asset is managed solely to collect contractual cash flows; and
- the contractual terms within the financial asset give rise to cash flows that are solely payments of principal and interest on the principal amount outstanding on specified dates.

A financial asset is subsequently measured at fair value through other comprehensive income when it meets the following conditions:

- the contractual terms within the financial asset give rise to cash flows that are solely payments of principal and interest on the principal amount outstanding on specified dates; and
- the business model for managing the financial asset comprises both contractual cash flows collection and the selling of the financial asset.

By default, all other financial assets that do not meet the measurement conditions of amortised cost and fair value through other comprehensive income are subsequently measured at fair value through profit or loss.

##### *Financial liabilities*

Financial liabilities are subsequently measured at:

- amortised cost; or
- fair value through profit or loss

A financial liability is measured at fair value through profit and loss if the financial liability is:

- a contingent consideration of an acquirer in a business combination to which AASB 3 applies
- held for trading; or
- initially designated as at fair value through profit or loss

All other financial liabilities are subsequently measured at amortised cost using the effective interest method.

The effective interest method is a method of calculating the amortised cost of a debt instrument and of allocating interest expense over its profit or loss over the relevant period.

The effective interest rate is the internal rate of return of the financial asset or liability. That is, it is the rate that exactly discounts the estimated future cash flows through the expected life of the instrument to the net carrying amount at initial recognition.

A financial liability is held for trading if it is:

- incurred for the purpose of repurchasing or repaying in the near term;
- part of a portfolio where there is an actual pattern of short-term profit taking; or
- a derivative financial instrument (except for a derivative that is in a financial guarantee contract or a derivative that is in an effective hedging relationship)

Any gains or losses arising on changes in fair value are recognised in profit or loss to the extent that they are not part of a designated hedging relationship.

##### *Ordinary shares*

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of ordinary shares are recognised as a deduction from equity, net of any tax effects.

## Notes to the Consolidated Financial Statements

### 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### **Derecognition**

Derecognition refers to the removal of a previously recognised financial asset or financial liability from the statement of financial position.

#### *Derecognition of financial liabilities*

A liability is derecognised when it is extinguished (i.e. when the obligation in the contract is discharged, cancelled or expires). An exchange of an existing financial liability for a new one with substantially modified terms, or a substantial modification to the terms of a financial liability is treated as an extinguishment of the existing liability and recognition of a new financial liability.

The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable, including any non-cash assets transferred or liabilities assumed, is recognised in profit or loss.

#### *Derecognition of financial assets*

A financial asset is derecognised when the holder's contractual rights to its cash flows expires, or the asset is transferred in such a way that all the risks and rewards of ownership are substantially transferred.

All the following criteria need to be satisfied for derecognition of a financial asset:

- the right to receive cash flows from the asset has been expired or been transferred;
- all risk and rewards of ownership of the asset have been substantially transferred; and
- the entity no longer controls the asset (i.e. it has no practical ability to make unilateral decisions to sell the asset to a third party).

On derecognition of a financial asset measured at amortised cost, the difference between the asset's carrying amount and the sum of the consideration received and receivable is recognised in profit or loss.

On derecognition of a debt instrument classified as at fair value through other comprehensive income, the cumulative gain or loss previously accumulated in the investment revaluation reserve is reclassified to profit or loss.

On derecognition of an investment in equity which was elected to be classified under fair value through other comprehensive income, the cumulative gain or loss previously accumulated in the investments revaluation reserve is not reclassified to profit or loss, but is transferred to retained earnings.

#### **Impairment of financial assets**

An impairment loss is recognised for the expected credit losses on financial assets when there is an increased probability that the counterparty will be unable to settle an instrument's contractual cash flows on the contractual due dates, a reduction in the amounts expected to be recovered, or both. The probability of default and expected amounts recoverable are assessed using reasonable and supportable past and forward-looking information that is available without undue cost or effort. The expected credit loss is a probability-weighted amount determined from a range of outcomes and takes into account the time value of money.

For trade receivables, material expected credit losses are measured by applying an expected loss rate to the gross carrying amount. The expected loss rate comprises the risk of a default occurring and the expected cash flows on default based on the aging of the receivable. The risk of a default occurring always takes into consideration all possible default events over the expected life of those receivables ("the lifetime expected credit losses"). Different provision rates and periods are used based on groupings of historic credit loss experience by product type, customer type and location.

For intercompany loans that are repayable on demand, expected credit losses are based on the assumption that repayment of the loan is demanded at the reporting date. If the subsidiary does not have sufficient accessible highly liquid assets in order to repay the loan if demanded at the reporting date, an expected credit loss is calculated. This is calculated based on the expected cash flows arising from the subsidiary, and weighted for probability likelihood variations in cash flows.

#### **(k) Plant and equipment**

All plant and equipment is stated at historical cost less depreciation. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognised when replaced. All other repairs and maintenance are charged to the statement of profit and loss and other comprehensive income during the reporting period in which they are incurred.

Depreciation of plant and equipment is calculated using the prime cost method to allocate their cost or revalued amounts, net of their residual values, over their estimated useful lives or, in the case of leasehold improvements and certain leased plant and equipment, the shorter lease term. The rates are 20% per annum.

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at each reporting date.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount (note 1(h)).

Gains and losses on disposals are determined by comparing proceeds with carrying amount. These are included in the statement of profit and loss and other comprehensive income.

#### **(l) Exploration and evaluation costs**

All exploration and evaluation expenditure is expensed to the statement of profit and loss and other comprehensive income as incurred. That the carrying value of mineral assets, as a result of the operation of this policy, is zero does not necessarily reflect the board's view as to the market value of those assets.

## Notes to the Consolidated Financial Statements

### 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### (m) Trade and other payables

These amounts represent liabilities for goods and services provided to the Group prior to the end of the financial year which are unpaid. The amounts are unsecured, non-interest bearing and are paid on normal commercial terms.

#### (n) Employee benefits

##### *Wages and salaries and annual leave*

Liabilities for wages and salaries, including non-monetary benefits, and annual leave expected to be settled within 12 months of the reporting date are recognised in other payables in respect of employees' services up to the reporting date and are measured at the amounts expected to be paid when the liabilities are settled.

#### (o) Share-based payments

The Group may provide benefits to employees (including directors) of the Group, and to vendors and suppliers, in the form of equity-based payment transactions, whereby employees render services, or where vendors sell assets to the Group, in exchange for shares or rights over shares ('equity-settled transactions'), refer to note 21.

The cost of equity-settled transactions with employees is measured by reference to the "fair value", not market value. The "fair value" is determined in accordance with Australian Accounting Standards. The Directors do not consider the resultant value as determined in accordance with Australian Accounting Standards (such as by the application of the Black-Scholes European Option Pricing Model) represents market value. In the case of share options issued, in the absence of a reliable measure, AASB 2 *Share Based Payments* prescribes the approach to be taken to determining the fair value. Other models may be used.

The cost of equity-settled transactions is recognised, together with a corresponding increase in equity, over the period in which the performance conditions are fulfilled, ending on the date on which the relevant employees become fully entitled to the award ('vesting date').

The cumulative expense recognised for equity-settled transactions at each reporting date until vesting date reflects (i) the extent to which the vesting period has expired and (ii) the number of options that, in the opinion of the directors of the Group, will ultimately vest. This opinion is formed based on the best available information at balance date. No adjustment is made for the likelihood of market performance conditions being met as the effect of these conditions is included in the determination of fair value at grant date.

No expense is recognised for options that do not ultimately vest, except for options where vesting is conditional upon a market condition.

Where an option is cancelled, it is treated as if it had vested on the date of cancellation, and any expense not yet recognised for the option is recognised immediately. However, if a new option is substituted for the cancelled option, and designated as a replacement option on the date that it is granted, the cancelled and new option are treated as a modification of the original option.

#### (p) Issued capital

Ordinary shares are classified as equity.

Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

#### (q) Earnings per share

##### *(i) Basic earnings per share*

Basic earnings per share is calculated by dividing the profit attributable to owners of the company, excluding any costs of servicing equity other than ordinary shares, by the weighted average number of ordinary shares outstanding during the financial year, adjusted for bonus elements in ordinary shares issued during the year.

##### *(ii) Diluted earnings per share*

Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account the after income tax effect of interest and other financing costs associated with dilutive potential ordinary shares and the weighted average number of shares assumed to have been issued for no consideration in relation to dilutive potential ordinary shares.

#### (r) Goods and Services Tax (GST)

Revenues, expenses and assets are recognised net of the amount of associated GST, unless the GST incurred is not recoverable from the taxation authority. In this case it is recognised as part of the cost of acquisition of the asset or as part of the expense.

Receivables and payables are stated inclusive of the amount of GST receivable or payable. The net amount of GST recoverable from, or payable to, the taxation authority is included with other receivables or payables in the statement of financial position.

Cash flows are presented on a gross basis. The GST components of cash flows arising from investing or financing activities which are recoverable from, or payable to the taxation authority, are presented as operating cash flows.

## Notes to the Consolidated Financial Statements

### 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

The preparation of the financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts in the financial statements. Management continually evaluates its judgements and estimates in relation to assets, liabilities, contingent liabilities, revenue and expenses. Management bases its judgements, estimates and assumptions on historical experience and on other various factors, including expectations of future events, management believes to be reasonable under the circumstances. The resulting accounting judgements and estimates will seldom equal the related actual results. The judgements, estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities (refer to the respective notes) within the next financial year are discussed below.

#### *Coronavirus (COVID-19) pandemic*

Judgement has been exercised in considering the impacts that the Coronavirus (COVID-19) pandemic has had, or may have, on the consolidated entity based on known information. This consideration extends to the nature of the products and services offered, customers, supply chain, staffing and geographic regions in which the consolidated entity operates. Other than as addressed in specific notes, there does not currently appear to be either any significant impact upon the financial statements or any significant uncertainties with respect to events or conditions which may impact the consolidated entity unfavourably as at the reporting date or subsequently as a result of the Coronavirus (COVID-19) pandemic.

#### *Taxation*

Balances disclosed in the financial statements and the notes thereto related to taxation are based on the best estimates of the directors. These estimates take into account both the financial performance and position of the Group as they pertain to current income taxation legislation, and the directors understanding thereof. No adjustment has been made for pending or future taxation legislation. The current income tax position represents that directors' best estimate, pending an assessment by the Australian Taxation Office.

#### *Environmental issues*

Balances disclosed in the financial statements and notes thereto are not adjusted for any pending or enacted environmental legislation and the directors understanding thereof. At the current stage of the Group's development and its current environmental impact, the directors believe such treatment is reasonable and appropriate.

#### *Share-based payments*

Share-based payment transactions, in the form of options to acquire ordinary shares, are valued using the Black-Scholes option or other recognised pricing model. Models use assumptions and estimates as inputs.

Whilst the Directors do not consider the result derived by the application of, say, the Black-Scholes European Option Pricing Model is in anyway representative of the market value of the share options issued, in the absence of reliable measure for the same, AASB 2 *Share Based Payments* prescribes the fair value be determined by applying a generally accepted valuation methodology. Other recognised models may be used.

## Notes to the Consolidated Financial Statements

### 2. FINANCIAL RISK MANAGEMENT

The Group's activities expose it to a variety of financial risks: market risk (including currency risk, interest rate risk and price risk), credit risk and liquidity risk. The Group's overall risk management program includes consideration of the unpredictability of financial markets and seeks to minimise potential adverse effects on the financial performance of the Group in the context of the board's judgement as to an acceptable balance as between risk/reward in the context of the Company and all the prevailing circumstances.

Risk management is carried out by a risk management committee comprised of the full board of Directors as the Group believes, given the circumstances of the Company, that it is crucial for all board members to be involved in this process. Therefore, all Directors have responsibility for identifying, assessing, treating and monitoring risks and reporting to the board on risk management.

#### (a) Market risk

##### (i) Foreign exchange risk

The Group is exposed to foreign exchange risk arising from the United States Dollar (USD) and Chilean pesos (CLP) denominated bank accounts held by the Group.

Foreign exchange risk arises from future commercial transactions and recognised assets and liabilities denominated in a currency that is not the entity's functional currency and net investments in foreign operations. The Group's cash is held in A\$, US\$ and Chilean CLP. The Group's foreign currency risk management policy is to minimise foreign exchanges losses through diligent forecasting servicing requirements, monitoring relevant currencies, and exercising a business judgement as to what steps will produce the best result. The Company is not in the business of trying to make money from currency transactions.

The Group's exposure to foreign currency risk as the end of the reporting period was as follows:

	2020	2019
Cash and cash equivalents	\$US799,899	\$US217
Cash and cash equivalents	CLP10,945,027	CLP33,592,001

##### Sensitivity analysis

Based on the financial instruments held at 30 June 2020, had the Australian dollar weakened or strengthened by 10% against the USD and Chilean Peso (CLP) with all other variables held constant, the Group's post-tax loss would have been \$107,909 lower or higher (2019: \$7,209 lower or higher) as a result of foreign exchange gains/losses on translation of the USD and Chilean Peso denominated financial instruments. Other components of equity would not be materially impacted by the foreign exchange movements.

##### (ii) Price risk

The Group is exposed to equity securities price risk. This arises from investments held by the Group and classified in the statement of financial position as financial assets. Given the current level of operations, the Group is not currently directly exposed to commodity price risk.

The Group's equity investments are publicly traded on the ASX, as well as some unlisted securities (such as options over unissued shares), with the investments being made for strategic purposes identified by the board of Directors. The price risk is monitored by the board and evaluated in accordance with these strategic outcomes. The board does not currently intend on making any additional investments but reserves the right to do so.

##### Sensitivity analysis

At 30 June 2020, if the value of the equity instruments held had increased or decreased by 15% with all other variables held constant, post-tax loss for the Group would not have changed and equity would have been \$5,554 higher or lower as a result of gains or losses on equity securities classified as financial assets (2019: \$7,920 higher (or lower)).

##### (iii) Interest rate risk

The Group is exposed to movements in market interest rates on cash and cash equivalents. The Group's policy is to monitor the interest rate yield curve out to six months to seek a balance between the liquidity of cash assets and the interest rate return. The entire balance of cash and cash equivalents for the Group \$1,660,960 (2019: \$274,205) is subject to interest rate risk. The weighted average interest rate received on cash and cash equivalents by the Group was minimal during the year.

##### Sensitivity analysis

At 30 June 2020, as interest rates are historically low, if interest rates had changed by +/- 100 basis points from the weighted average rate for the year with all other variables held constant, post-tax loss for the Group would have been insignificant (2019: Insignificantly lower or higher) as a result of lower/higher interest income from cash and cash equivalents.

#### (b) Credit risk

The maximum exposure to credit risk at balance date is the carrying amount (net of provision for impairment) of those assets as disclosed in the statement of financial position and notes to the financial statements. Credit risk arises from cash and cash equivalents.

All surplus cash holdings within the Group are to be invested with financial institutions with a minimum "A" rating.

The Group credit risk management practices involve regular reporting to the board as to where funds are invested, the term of the investment and current interest yield.

## Notes to the Consolidated Financial Statements

### 2. FINANCIAL RISK MANAGEMENT (Continued)

#### (c) Liquidity risk

The Group manages liquidity risk by continuously monitoring forecast and actual cash flows and ensuring sufficient cash and marketable securities are available to meet the current and future commitments of the Group. Debt and equity funding are options open to the Company. The board of Directors constantly monitor the state of equity markets in conjunction with the Group's current and future funding requirements, with a view to ensuring the Group has adequate funds available.

The financial liabilities of the Group are confined to trade and other payables as disclosed in the statement of financial position. All trade and other payables are non-interest bearing and due within 12 months of the reporting date.

#### (d) Fair value measurements

The fair value of financial assets and financial liabilities must be estimated for recognition and measurement or for disclosure purposes. All financial assets and financial liabilities of the Group at the balance date are recorded at amounts approximating their fair value.

The fair value of financial instruments traded in active markets is based on quoted market prices at the reporting date. The quoted market price used for financial assets held by the Group is the current bid price. All of the Group's financial assets for which a value has been recognised are publicly traded on the ASX and are classified as level 1 on the AASB 7 *Financial Instruments: Disclosures* hierarchy.

The carrying value, less impairment provision, of trade receivables and payables are assumed to approximate their fair values due to their short-term nature.

### 3. SEGMENT INFORMATION

The Group has identified that it operates in only one segment based on the internal reports that are reviewed and used by the board of directors (chief operating decision makers) in assessing performance and determining the allocation of resources. The Group's principal activity is the identification acquisition and exploration of mineral assets.

	<b>Consolidated</b>	
	<b>2020</b>	<b>2019</b>

### (e) Ordinary fully and contributing shares

Ordinary shares (which include the contributing (or partly paid) shares) entitle the holder to participate in dividends and the proceeds on winding up of the Company in proportion to the number of shares held, regardless of the amount paid up thereon.

On a show of hands every holder of fully paid ordinary shares present at a meeting in person or by proxy, is entitled to one vote, and upon a poll each share is entitled to one vote for each fully paid share and in respect of a contributing share, a fraction of a vote equivalent to the proportion which the amount paid up bears to the total issue price.

Ordinary shares have no par value and the Company does not have a limited amount of authorised capital.

	Consolidated	
	2020	2019
	\$	\$
<b>(f) Capital risk management</b>		
The Group's objectives when managing capital is to safeguard its ability to continue as a going concern and to take advantage of organic and acquisitive mineral property opportunities, so that it may strive to provide returns for shareholders and benefits for other stakeholders. Debt and equity funding options are open to the Group. The working capital position of the Group at 30 June 2020 and 30 June 2019 are as follows:		
Cash and cash equivalents	1,660,960	274,205
Trade and other receivables	-	10,630
Other assets	-	3,720
Trade and other payables	(130,844)	(84,829)

<b>13. RESERVES</b>			
<b>(a) Reserves</b>			
Financial assets	(26,786)		(11,012)
Share-based payments reserve	<b>81,800</b>		54,000
	<b>55,014</b>		<b>42,988</b>

### (b) Nature and purpose of reserves

#### (i) Financial assets reserve

Changes in the fair value and exchange differences arising on translation of investments, such as equities, classified as fair value through other comprehensive income financial assets, are recognised in other comprehensive income, as described in note 1(j) and accumulated in a separate reserve within equity. Amounts are reclassified to profit or loss when the associated assets are sold or impaired.

#### (ii) Share-based payments reserve

The share-based payments reserve is used to recognise the “fair value” of options issued at the grant date.

## 14. DIVIDENDS

No dividends were paid during the financial year. No recommendation for payment of dividends has been made.

## 15. REMUNERATION OF AUDITORS

During the year the following fees were paid or payable for services provided by the auditor of the Company, its related practices and non-related audit firms:

Audit and review of financial reports	19,123	27,000
Tax compliance services	2,500	2,698
Preparation of independent expert report	10,000	
Total remuneration	<b>31,623</b>	<b>29,698</b>

## 16. CONTINGENCIES AND COMMITMENTS

The Group has a contingent asset, being a cause of action it contends arose against Territory Minerals Limited (ACN 121 200 299) and/or parties associated with it (including without limitation Ron Stanley and Ron Stanley & Associates) in or about June 2016 in relation to the lost opportunity, costs and expenses incurred and thrown away as a result of Ron Stanley & Associates repudiation of an agreement whereby EMU could, subject to various conditions, acquire an interest in certain exploration tenements held (or claimed to be held) by Territory Minerals Limited in Queensland.

In order to maintain current rights of tenure to exploration tenements held in Western Australia, the Group has certain obligations to perform minimum exploration on the tenements in which it has an interest. These obligations may in some circumstances be varied or deferred. Tenement rentals and minimum expenditure obligations may be varied or deferred on application and are expected to be met in the normal course of business and have not been provided for in the financial report. The minimum statutory expenditure commitments required to be spent on the granted tenements for the next twelve months amounts to \$26,000 (2019: \$25,000).

Other than as described above, there are no material contingent liabilities or contingent assets of the Group at the reporting date.

## Notes to the Consolidated Financial Statements

Consolidated  
2020                      2019

### 17. RELATED PARTY and KEY MANAGEMENT PERSONNEL TRANSACTIONS

#### (a) Parent entity

The ultimate parent entity within the Group is Emu NL.

#### (b) Subsidiaries

Interests in subsidiaries are set out in Note 18.

#### (c) Key management personnel compensation

Short-term benefits	357,609	275,847
Post-employment benefits	7,303	20,809
Share-based payments	35,700	34,000
	400,612	330,656

Refer to the Remuneration Report contained in the Directors' Report for the details of the remuneration paid or payable and the share and option holdings in relation to each of the Group's KMP for the year ended 30 June 2020.

#### (d) Loans to related parties

Emu NL has unsecured, interest free loans with its wholly owned subsidiary, Emu Chile SpA, totalling \$6,488,034 receivable at 30 June 2020 (2019: \$3,810,685).

Emu NL had made a total of \$497,165 as unsecured, interest free loans to its wholly owned subsidiary, Emu Blue Pty Ltd. This loan was written off in full prior to deregistration procedures being commenced in March 2020.

An impairment assessment is undertaken each financial year by the respective lender at that point in time to determine the ability of the borrower to repay the amount outstanding. When objective evidence of impairment exists, the lending entity is to recognise an allowance for the impairment loss.

#### (e) Transactions with other related parties

The Group is party to a Lease Agreement with Mr Peter Thomas, Chairman, whereby Mr Thomas has agreed to provide the Group with office accommodation for a fee of \$4,250 per month, terminable at will by either party on one month's notice, which commenced on 1 January 2013 and was revised as to quantum from 1 October 2019. Rental paid during the year totalled \$56,250 (2019: \$42,000), and there was \$1,650 (including GST) outstanding at the reporting date (2019: \$3,850).

### 18. SUBSIDIARIES

The consolidated financial statements incorporate the assets, liabilities and results of the following subsidiaries in accordance with the accounting policy described in Note 1(b):

Name	Country of Incorporation	Class of Shares	Equity Holding <sup>(1)</sup>	
			2020 %	2019 %
Emu Chile SpA	Chile	Ordinary	100	100
Emu Blue Pty Ltd – Deregistered 29 July 2020	Australia	Ordinary	100	100

(1) The proportion of ownership interest is equal to the proportion of voting power held.

## Notes to the Consolidated Financial Statements

### 19. SIGNIFICANT EVENTS OCCURRING AFTER THE BALANCE SHEET DATE

Since the reporting date:

- EMU announced on 28 September 2020 that it had completed an issue of 33,333,333 fully paid ordinary shares at \$0.03 each (raising \$1,000,000 before costs) to sophisticated and professional investors. The shares were listed on ASX and rank equally with the existing fully paid ordinary shares. The placement was issued from EMU's capacity under both ASXLR 7.1A (10% rule) and ASXLR 7.1 (15% rule).
- EMU announced on 28 September 2020 that it had transformed into a WA-focused precious and base metals exploration company, with near-term gold production potential with the contracted Acquisition of:
  - Coruscant Minerals Pty Ltd, the holder of the Gnows Nest Gold Project, which includes the historic high-grade Gnows Nest Gold Mine, located within the Yalgoo Mineral Field of WA and
  - 3 projects prospective for nickel-copper-platinum group element (Ni-Cu-PGE) mineralisation located within the emerging South West Terrane in the Wheatbelt Region of WA.
- The Company advised in its June 2020 Quarterly Activity Report that an agreement was reached in the District Court of Western Australia by Wallis and EMU to settle the claim initiated by Wallis Drilling to which EMU counter claimed. Both the claim and the counter claim were dismissed with no order as to costs and no prior order as to costs will be enforced.

No other events or circumstances have arisen since the end of the financial year which significantly affected or which in the judgement of the board may significantly affect the operations of the Group, the results of those operations, or the state of affairs of the Group in future financial periods.

Weighted average number of ordinary shares used as the denominator in calculating basic	283,776,517	148,396,722

## Notes to the Consolidated Financial Statements

### (c) Information on the classification of options

As the Group has made a loss for the year ended 30 June 2019, no options on issue have been included in the calculation of diluted earnings per share. These options could potentially dilute basic earnings per share in the future.

Set out below are summaries of all options granted during the year:

	Consolidated			
	2020		2019	
	Number of options	Weighted average exercise price cents	Number of options	Weighted average exercise price cents
Outstanding at the beginning of the financial year	50,355,000	17.97	5,050,000	10.89
Expired	(6,000,000)	(0.1)	(5,050,000)	10.00
Granted	22,000,000	0.12	6,000,000	0.004
Granted	40,000,000	4.43	44,355,000	17.62
Granted	65,759,750	0.18	-	-
Granted	8,454,468	0.09	-	-
Outstanding at year-end	<b>180,569,218</b>	<b>11.25</b>	50,355,000	17.97
Exercisable at year-end	<b>180,569,218</b>	<b>11.25</b>	50,355,000	17.97

The weighted average remaining contractual life of share options outstanding at the end of the financial year was 1.49 years (2019:1.69 years), and the weighted average exercise price is 11.25 cents.

## 22. SHARE-BASED PAYMENTS

### Options issued to employees

The Group may provide benefits to employees (including directors) and contractors of the Group in the form of share-based payment transactions, whereby, for instance, options to acquire ordinary shares may be issued as an incentive to improve employee and shareholder goal congruence. The exercise price of options to acquire a total of 22,000,000 partly-paid shares so issued during the period and outstanding at 30 June 2020 is 3 cents per option with an expiry date of 21 December 2021.

The options issued during the year were valued using the Black-Scholes European Option Pricing Model which is the form recommended under IFRS guidelines. Total expenses arising from share based payment transactions to employees recognised during the period were \$35,700 (Refer to Note 17).

Total expenses arising from share-based payment transactions other than to provide benefits to employees (including directors) recognised during the period were as follows:

	Consolidated	
	2020	2019
	\$	\$
Shares issued to vendor of Chile gold project (issued at market value on day of issue)	-	105,000
Shares issued to contractors shown as share-based payments	<b>16,100</b>	269,525
<b>Total</b>	<b>16,100</b>	<b>374,525</b>

## Directors' Declaration

In the directors' opinion:

- (a) the financial statements comprising the statements of financial performance, statements of financial position, statements of changes in equity, statements of cash flows and accompanying notes set out on pages 14 to 35 are in accordance with the *Corporations Act 2001*, including:
  - (i) complying with Accounting Standards, the *Corporations Regulations 2001* and other mandatory professional reporting requirements; and
  - (ii) giving a true and fair view of the Company's and the consolidated entity's financial position as at 30 June 2020 and of their performance for the financial year ended on that date;
- (b) there are reasonable grounds to believe that the Company will be able to pay its debts as and when they become due and payable;
- (c) the remuneration disclosures included in the Directors' Report (as part of the audited Remuneration Report), for the year ended 30 June 2020, comply with Section 300A of the *Corporations Act 2001*; and
- (d) a statement that the attached financial statements are in compliance with International Financial Reporting Standards has been included in the notes to the financial statements.

The directors have been given the declarations by the chief executive officer and chief financial officer required by section 295A of the *Corporations Act 2001*.

This declaration is made in accordance with a resolution of the directors.

*Signature of Peter Thomas noted as having been affixed with approval*

## Independent Audit Report to the members of Emu NL

### Report on the Audit of the Financial Report

#### Opinion

We have audited the financial report of Emu NL (the Company) and its subsidiaries (the Group), which comprises the consolidated statement of financial position as at 30 June 2020, the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies, and the directors' declaration.

In our opinion, the accompanying financial report of the Group is in accordance with the *Corporations Act 2001*, including:

- (i) giving a true and fair view of the Group's financial position as at 30 June 2020 and of its financial performance for the year then ended; and
- (ii) complying with Australian Accounting Standards and the *Corporations Regulations 2001*.

#### Basis for Opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described as in the *Auditor's Responsibilities for the Audit of the Financial Report* section of our report. We are independent of the Group in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants* (the code) that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the *Corporations Act 2001*, which has been given to the directors of the Company, would be in the same terms if given to the directors as at the time of this auditor's report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### **Material uncertainty related to going concern**

We draw attention to Note 1 to the financial report, which describes that the ability of the Company to continue as a going concern is dependent on successful mining and exploration, and further equity issues to the market. As a result, there is material uncertainty related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern, and therefore whether it will realise its assets and extinguish its liabilities in the normal course of business and at the amounts stated in the financial report. Our opinion is not modified in respect of this matter.

#### Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial report of the current period. These matters were addressed in the context of our audit of the financial report as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

#### **Key management personnel compensation, exploration expenses and administration expenses: \$4,005,200**

Refer to Consolidated Statement of Profit or Loss and Other Comprehensive Income and Note 5

## Key Audit Matter

## How our audit addressed the matter

Key management personnel compensation, exploration expenses and other expenses, collectively are a substantial figure in the financial statements of the Group, representing a significant portion of shareholder equity spent during the financial year.

Given the significance of the above expenses, we considered that the validity and accuracy of the recorded expenditures to be a key audit matter.

Our audit work included, but was not restricted to, the following:

- We examined the Group's approval processes in relation to making payments to its suppliers and employees.
- We selected random sample of expenses, and vouched each item selected to invoices and other supporting documentation.
- We requested copies of service agreements with key management personnel of the Group during the financial year.
- From those charged with governance of the Group we requested confirmations from all directors and other key management personnel of the Group during the financial year of their remuneration and any other transactions between them, their related parties and the Group.
- We reviewed Board minutes of meetings held during the financial year.

### Other Information

The directors are responsible for the other information. The other information comprises the Review of Operations and Directors Report and other information included in the Group's annual report for the year ended 30 June 2020 but does not include the financial report and our auditor's report thereon.

The other information obtained at the date of this auditor's report is included in the annual report, (but does not include the financial report and our auditor's report thereon).

Our opinion on the financial report does not cover the other information and accordingly we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed on the other information obtained prior to the date of this auditor's report, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

### Responsibilities of Directors for the Financial Report

The directors of the Company are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the directors are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

### Auditor's Responsibilities for the Audit of the Financial Report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial report.

As part of an audit in accordance with the Australian Auditing Standards, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial report, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used in the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, used on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on

the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial report or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as going concern.

- Evaluate the overall presentation, structure and content of the financial report, including the disclosures, and whether the financial report represents the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the directors, we determine those matters that were of most significance in the audit of the financial report of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

## **Report on the Remuneration Report**

### *Opinion on the Remuneration Report*

We have audited the Remuneration Report included on page 7 to page 11 in the directors' report for the year ended 30 June 2020.

In our opinion, the Remuneration Report of EMU NL, for the year ended 30 June 2020, complies with section 300A of the *Corporations Act 2001*.

### *Responsibilities*

The directors of the Company are responsible for the preparation and presentation of the Remuneration Report in accordance with section 300A of the *Corporations Act 2001*. Our responsibility is to express an opinion on the Remuneration Report, based on our audit conducted in accordance with Australian Auditing Standards.
